Revised July 21, 2011

As this file was created for my own use a few words about the format of the entries are in order. The entries are listed by *MD* volume. Each volume is preceded by the volume number and year in boldface. Articles that are carried across more than one volume have their parts listed under the applicable volumes. This entry, from Volume 14, will illustrate the format used:

14 (1912):45-48, 180-185, 203-209 (Cont. from 7:57, cont. to 15:45)  
Bridgewater, Mass., Vital Records {Vital Records of Bridgewater, Mass.}  
George Ernest Bowman

The first line of an entry for an individual article or portion of a series shows the *MD* pages for an article found in that volume. When a series spans more than one volume a note in parentheses indicates the volume and page from which or to which it is continued.

The second line shows the title of the article. Some series that began running in the early years of *MD* had the series title changed partway through their run. In those cases I have listed all of the articles in the series under the titles used for each portion, and have indicated alternative titles in curly braces.

The third line lists the author.

An initial section lists all series that were continued across more than one volume. In that section the series titles have been rearranged to indicate the town or family that is the focus of the series, and all volume and page numbers for the series are shown.

I have listed only articles with genealogical or historical content of interest to the genealogical researcher. I have not included articles and series such as "Reports from State Societies" and "Proceedings of the Massachusetts Society of Mayflower Descendants."

This file will be revised twice each year as I receive new issues of *MD*. Please address comments and corrections to the author at the email address given above.
