As this file was created for my own use a few words about the format of the entries are in order. The entries are listed by NGSQ volume. Each volume is preceded by the volume number and year in boldface. Articles that are carried across more than one volume have their parts listed under the applicable volumes. This entry, from Volume 19, will illustrate the format used:

Abstracts of Revolutionary War Pension Applications
Jessie McCausland (Mrs. A. Y.) Casanova

The first line of an entry for an individual article or portion of a series shows the NGSQ pages for an article found in that volume. When a series spans more than one volume a note in parentheses indicates the volume and page from which or to which it is continued.

The second line shows the title of the article.

The third line lists the author.

I have listed only articles with genealogical or historical content of interest to the genealogical researcher. I have not included articles and series such as "Book Reviews" and Society news.

In most volumes I have collected short items under two headings - "Family Bible Records / Family Records" and "Notes."

This file currently covers the first eighty-five volumes of NGSQ, and will be revised as I add additional volumes. Progress from here on out will be slow, as I will need to consult volumes in print at the local library. Please address comments and corrections to the author at the email address given above.
