The Record, published quarterly since 1870 by the New York Genealogical and Biographical Society, is the second-oldest genealogical journal in the nation. Its contents include many articles concerning families outside of the state of New York.

As this file was created for my own use a few words about the format of the entries are in order. The entries are listed by Record volume. Each volume is preceded by the volume number and year in boldface. Articles that are carried across more than one volume have their parts listed under the applicable volumes. This entry, from Volume 4, will illustrate the format used:

4 (1873):32-39, 94-98, 190-194 (Cont. from 3:190, cont. to 5:38)
Records of the Society of Friends of the City of New York and Vicinity, from 1640 to 1800
Abraham S. Underhill

The first line of an entry for an individual article or portion of a series shows the Record pages for an article found in that volume. When a series spans more than one volume a note in parentheses indicates the volume and page from which or to which it is continued.

The second line shows the title of the article, and the third line lists the author.

I have listed only articles with genealogical or historical content of interest to the genealogical researcher. I have not included articles and items such as "Book Reviews" and "Queries," although some replies to queries are included.

This file is a work in progress, and as I add groups of volumes revisions will be posted. Please address any corrections to the compiler at the email address given above.
